DREER'S QUARTERLY
Wholesale Price List.

AUTUMN EDITION.

September.....1895.....December.

In submitting the Autumn Edition of our Wholesale Price List we desire to call the attention of our Customers to our choice stock of Bulbs which have arrived in the finest condition, and are of unsurpassed quality. Our sources of supply are the best in this country and abroad, the leading growers of the world having for years supplied us with their choicest stock.

In the Plant Department our stock of decorative plants, Palms, Dracænas, Pandanus, Ferns, etc., is probably the most complete in the country, consisting of a full line of all sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes; all are in a clean, healthy and vigorous condition, thrifty and well grown. We now devote 50 large houses (over 200,000 square feet of glass) covering five acres of ground to this class of plants alone, while we give close attention to all other desirable Florists' Stock.

LOW EXPRESS RATES ON PLANTS.

We are shipping by all express lines to any part of the country, plants packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Boxes weighing less than 1000 pounds are charged at pound rates, minimum charge not less than 35 cents. For example: where the general rate is \$5.00 per 100 pounds, a box weighing 20 pounds will be carried for 80 cents. Prepaid 4 pound packages of seeds, plants and bulbs are carried to California and all distant points for 30 cents each.

TERMS OF BUSINESS.

☞ Unknown correspondents desiring to open an account will please furnish satisfactory reference, otherwise cash must accompany order.

☞ Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way,

☞ No charge is made for boxes or packing, nor for delivery to Frieght Depots or Express Offices.

☞ In filling out your order, always give SHIPPING DIRECTIONS, and write NAME and ADDRESS DISTINCTLY.

Lilium Harrisii.

BERMUDA EASTER LILY.

A combination of the principal growers of the Bermuda Lily Bulb has been formed with a view to their improvement and better selection. Many of the less important growers having injured their stock by cutting the flowers for Easter sales, and by carelessness in their cultivation. Our bulbs have always been grown by one of the most careful and conscientious growers in Bermuda, and may be depended upon to be the best that can be procured. As we are among the largest buyers of this Bulb, we have made very favorable arrangements with the combine, and can sell the bulbs as low as reliable stock can be had.

LILY OF THE VALLEY.

(Ready in November.)

In consequence of the severe drought in Northern Germany, during May and June, 1893, the Lily of the Valley crop will be short this year and considerably higher in price. We have been fortunate in securing from the best source of their production a fine lot of pips, which we offer in three grades as follows:

Extra selected 3 year old pips of first quality, grown in sandy soil, for early forcing, \$11.00 per 1000.

In lots of 5000 and upwards at \$10.00 per 1000.

Pips grown in heavy soil, for late forcing, best selected 3 year old, \$10.00 per 1000. In lots of 5000 and upwards at \$9.50 per 1000.

Smaller pips, of very good quality, \$9.50 per 1000. In lots of 5000 and upwards at \$9.00 per 1000.

Plants for Florists.

Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, Araucaria, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown, and will compare favorably with stock distributed by us in previous seasons.

Whenever possible, we solicit a personal inspection of our stocks. Our nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen.

☞ A time card of trains, with directions how to reach the nurseries, will be mailed to any one applying.

Bougainvillea Glabra Sanderiana.

A new variety of Bougainvillea and a plant that we feel certain will become very popular as a pot plant. We give the introducer's description: "It affords us great pleasure to offer this new and by far the most useful flowering plant known.

We have grown this new Bougainvillea in a greenhouse, where it has continued flowering for seven months, small and large plants alike being covered with blossoms. Even plants in thumb-pots were laden with bloom. The house in which our plants have been cultivated has been a sheet of flowers from May until December, and even up to the first of the year the plants were carrying thousands of their brilliant blossoms.

Many excellent judges state that this will be a favorite market plant, as it produces as freely as a Fuchsia its dazzling *rosy crimson flowers*, lasting so long in perfection, and produced in smallest pots, under all conditions, in amazing profusion. We can with all confidence recommend this grand plant as a great acquisition."

Import Orders for Azaleas.

We are now booking orders for fall delivery. Buyers who use a quantity of this most popular Easter blooming plant, will find it to their interest to place their orders for next season's wants early, thereby securing the choice of the stock at lowest cost for transportation, as the plants can be forwarded with perfect safety during October, by fast freight, even to the most distant points.

Our attention is frequently directed to other growers and dealers offering Azaleas of the same diameter as herein quoted, at much lower prices. We wish to say in reference to this stock, that there is more than one way of measuring an Azalea, and while a plant may measure 15 inches in diameter, it may be really worth less than another plant that only measures 12 inches in diameter. Most of this stock is grown on quickly without sufficient cutting back, the idea being to get a plant so many inches in diameter. As a rule this stock is distributed by some novice in the Azalea trade without personal inspection of the stock, who has been lured on by the vivid descriptions and prospects of large profits as offered to him by the Belgian growers.

We would here say that we do not offer our stock in competition with this class of plants. We have been handling Azaleas as a specialty for many years; last year we distributed nearly 25,000 plants, almost without a single complaint of any consequence.

Azaleas.

Our prices are as low as first-class, bushy, well budded stock can be supplied for, and we are certain that they will give entire satisfaction.

Our growers in Belgium are among the most successful men handling Azaleas; they have been specialists in this line for many years, and their principal stock is sent to us.

All of our importations of Azaleas are sent here in bulk, and are all repacked at our own nurseries, so that any plants that may not have carried well are set aside. This insures our customers of securing only first-class stock, which can not be compared with cheap assorted case lots which are made up in Belgium, and are distributed on this side just as received, frequently not only containing damaged plants, but also, as a rule, many varieties not at all suited to the American trade.

The varieties we supply are only the most popular sorts suited to the American market. We give personal attention to the selection of these stocks abroad, and can guarantee satisfaction. We offer well budded plants with bushy crowns.

Crowns, 10 to 12 ins. in diam., \$35.00 per 100.
 " 12 " 15 " " 65.00 "

Specimens, 18 to 20 ins. in diam., \$30.00 per dozen.

These prices hold good as long as the stock is not potted up, which is usually done early in November.

DWARF FRENCH CANNAS.

Large Field Grown Clumps.

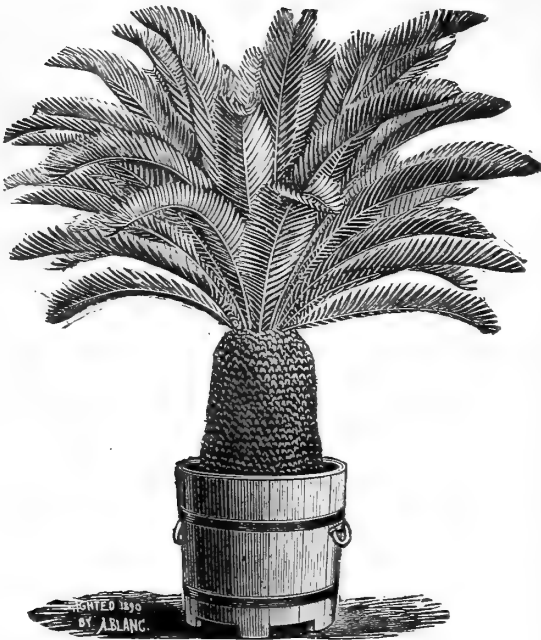

Having a large stock of the following varieties of Cannas, we offer them in strong undivided field grown clumps, which will average from twenty to fifty eyes each according to the variety, and at a price which will make it an advantage to stock up during the fall while they can be shipped in perfect safety by freight at a low cost for transportation. Orders for this stock at these low prices will only be accepted as long as the plants remain in the fields, which is usually until about the middle of October. Place your orders now and the stock will be reserved until the proper time to dig.

The Eureka Fumigator (Galvanized.)

An effectual apparatus for the fumigation of Greenhouses, Conservatories, Frames, Hospitals, Ships, Poultry-houses, or rooms. It is of simple construction, and not liable to get out of order. When once lit it is self-acting, and may be left in the house with perfect safety; as flaring it is an impossibility, all the material is completely consumed without waste and gives off a dense smoke. Make of extra heavy sheet iron.

No. 1. Height, 12 in.; diam. at top, 5 in. For a house 10 x 20 ft. Holds ½ peck of stems, \$1.10.

No. 2. Height, 16 in.; diam. at top, 7 in. Holds 1 peck of stems. \$1.75.

No. 3. Height, 20 in.; diam. at top, 9 in. For house 15 x 100 ft. Holds ½ bushel of stems. \$2.25.

Tar Twine for tying Mats and Fodder, etc. 10 cts. per lb.; \$8.00 per 100 lbs.

For stringing Smilax and other climbing plants, Silkline is the very thing so long needed.

Green Silkline is fast color and will not fade; is very strong and will not break down. Tearing and annoyance of removing the string saved, as Silkline is so near the color of the vines as to be practically invisible, and does not need to be removed; in fact, is valuable for fastening the vines when decorating. Made in three sizes, F, FF and FFF and put up on 2 oz. spools, 20 cts. each, 8 in a box, 16 oz. of Silkline guaranteed. Price \$1.25 per lb. Silkline is also used for Bouquet and general florist work.

Eureka Hand Weeder.

This very handy and useful little implement is the best hand weeder yet put upon the market, and is a great improvement on the clumsy weeders made of malleable iron heretofore offered. The tines are made of the best forged steel, sharply pointed and will not break. It will do very effective work in deep cultivation of rose and carnation beds and in all other work for which a hand weeder is necessary. Price, 25 cents each.
